

IN THE SPECIFICATION

In the outstanding office action the Examiner has objected to an informality on page 8, paragraph 39 of the application and recommend replacement of reference number 26 with reference number 32. Applicant concurs with the Examiner's recommendation and appreciates this inaccuracy being brought to her attention. Paragraph 39 of the specification has been set forth below with the requested correction.

[0039] As shown in FIGS. 3 through 5 the protective goggle 10 includes a housing 12 with an arcuate upper surface 14 with a first end 16 and a second end 18, a posterior edge 20 and an anterior edge 22, a substantially planar frontal surface 24, a centrally disposed nose bridge 26 32 and a first and second lower panel 28, 30 disposed opposite the nose bridge 32. The first and second lower panels include an anterior portion 34, 36 wherein the first and second ends of the substantially planar frontal surface intersect the first and second lower panels. The first and second lower panels 28, 30 include a lateral portion 38, 40 wherein the first and second ends of the arcuate upper surface intersect the lateral portion of the first and second lower panels 28, 30. The first and second lower panels 28, 30 join the arcuate upper surface 14 at the first end 16 and second end 18.
